

LETTER OF INTENT

Dear Madame/Sir

I would like to take this opportunity and thank you for your interest in my application and professional portfolio.

In the past few years I have gathered considerable experience in psychology, project management, health and civil society engagement in developing countries in Eastern Europe and Central Asia. As a member of UNDP Romania team as well as various other UN Agencies and the Presidential Administration of Kyrgyzstan, I have accumulated substantial experience in work with governmental, non-governmental organizations as well as with the private sector. I am now in the position to say that I have learned a great deal about national and international development practices which I could successfully use towards the representation of the CPR in the EFPA Health Standing Committee.

To name but a few of my strengths, experiences and qualifications that I could bring to such a position:

- A Master diploma in International Project Management
- A degree in Social Sciences
- Excellent organizational capacities as a consultant involved in the development of UN funded projects and substantial experience in EU Structural Funds policy
- Monitoring and evaluation expertise
- Excellent long term strategic thinking and proven management capabilities
- Excellent report and project writing skills
- Exceptional communication abilities in foreign languages (English, French, Italian and Russian)
- Substantial computer knowledge including Atlas system

I am confident that I would be able to contribute positively to this project and would be a dedicated and dynamic member of the team.

Sincerely yours,

Sorana Mocanu
